Drawings

1. New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because the drawings are sketches and not formal drawings. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

2. Claims 2-6 are allowed over prior art.

3. The following is an examiner's statement of reasons for allowance: As indicated in the previous office action, claim 5 contains allowable subject matter. Applicant has canceled claim 1, and amended previously objected to claim 5 to read as an independent claim. In addition, Applicant has amended claims 2-4, which now depend on amended claim 5.

Although the combined prior art discloses telephone systems wherein switch centers register and authorize telephone devices by utilizing associated identifying information such as personal identification number along with corresponding directory numbers and address/access codes, they fail to teach or suggest repeating the reception of an IP address and PIN by the switch center when the authentication of the PIN fails, repeating authentication of PIN in excess a predetermined number of consecutive times due to the access code failing authentication and response sending a lock set command to the IP phone, IP phone switch that consist of an address code and personal identification received by a communication system and passed to a OAM which authenticates the personal identification numbers with the personal identification numbers in the database and then associates directory number with the address code of the phone.
